YOUR Abstract of Project/Thesis

My project is a result of my research of communication platforms. My research is in the form of a journal where I document online communication experiences and interaction. In my work I offer reflective perspectives by telling the my story, using communication platforms as my tool and stage.

In my thesis I describe my thought process: from writing texts, defining my research method and understanding the impact communication interfaces have on us to translating my findings into interactive narratives.

ELIZA: Is it important to you that your boyfriend made you come here ?
YOU: He says I'm depressed much of the time.
ELIZA: I am sorry to hear that you are depressed.
YOU: It's true. I am unhappy.
ELIZA: Can you explain what made you unhappy ?
