

Shadow Play Box

A small installation, paper box, tree, artificial light...

3D character with moving mouth (brief intro)

“Hi, there’s me. Yeah, now I’m a monkey, but not always, only in your imagination. Yes, I’m disguised. I love this feeling though I can move my body, but it’s Safe. You can do what ever you want behind this ridiculous body. Yes, there is me, let’s talk.”

The intro in a super quiet voice.

Props in the box ?

No props in the box, a box with some leaves. Finally there's a key hidden under the leaves?

How to use the KEY? Key as the ending?

Make some revision on the script. Expand the dialogue.

360 Camera , looking at the whole space
