

Action Plan 28 March

Since I am not able to work on several things at the same time, I prefer only focus on one thing. I've been writing a lot during the spring break, so now I just want to make film. I can of cause do a little bit writing in next two weeks, to make a bibliography, and organize all the reference and research materials. When the films come out, I can back to writing again, and continue my thesis.

Documentation of the video work

I'm still working with love beans, the red film. I started video composition, now it's time to add animation on it.

For the rest, still need some research and filming work. I should search for black food and white food, and a story about green tea. I did a few video of the egg yellow film. I will work out this one after red film.
