

[Visual characteristics of Non-Places]

COLD : straight clean lines, hard boundaries, excess of edges as opposed to softer shapes.

STERILE : Stark colours, little warmth, no shading

CALCULATED : Clear paths, no room for interpretation (grid system?)

SUPERFICIAL : Surface level, plastic, replicas, manufactured.

DATED : Attempts at modernity but instead badly judged, carpeted lounges, bad patterns, faded, in need of refresh,

EXPOSED : Nowhere to hide, excess recording, always being watched.
