First getting to know
the space, buildings, familiar
space, buildings.
Comforted by buildings,
Home? My first home?
Architecture.
By buildings.

Buildings

We build buildings
and they build us?

Forever:
Inevitable loneliness;
Longing for something;

The impact of the form upon
human inhabitants.

I have things inside me that I want to get out. I think they
are buildings. Large glass structures, steel bolted. I am floating.
