

FEMINIST DATA CENTER
FICTIONAL MAP.

everyday life happening
feminist data center
is not isolated from it.
feminist data center
has a sense of context.
server
chop deep

A building
with big windows
(you can see what is happening
inside)
- its transparent.
- and welcoming

feminist data center exposes
(vulnerability)

community around
data

homes of neighbours
that I don't know yet
but they know that
our closest data center
is associated.

- when you enter you feel welcome
but sometimes you have to wait,
the dynamic between a host and "a client" is more dull
- feminist data center avoids scalability is led by
people who care for it.
→ feminist data center
challenges the conditions of
serving people
